FOR IMMEDIATE RELEASE

VILLAGE BOARD UNANIMOUSLY APPROVES LOCAL FRANCHISE AGREEMENT WITH METRONET TO BRING FIBER TO THE HOME IN PLAINFIELD

EVANSVILLE, IN, January 5, 2016 – MetroNet, one of the largest all fiber-to-the -premises providers in the Midwest, announced today that it will expand into Plainfield with construction activities commencing as soon as the Spring of 2016 due to its recently approved Local Franchise Agreement with the Village.

Through MetroNet’s state-of-the-art fiber infrastructure, residential consumers will have access to Internet speeds of up to 1 Gbps, interactive fiber TV service with incredible picture quality, and reliable feature-rich fiber phone service, all at affordable rates. MetroNet also plans to offer a full suite of business communications services ranging from a scalable HPBX phone solution for small and medium businesses all the way up to customized network services tailored to the specific needs of larger customers.

“We are excited to be able to offer additional options to the residents of Plainfield,” stated Village Administrator, Brian Murphy. “Not only will consumers benefit from having access to their fast Gigabit Internet services, they will also benefit from having another competitor in the marketplace.”

As a vibrant and growing market with strong local leadership and a forward focus on technology and enhanced quality of life for its residents, MetroNet is excited about Plainfield.

“One of the primary factors in our evaluation process is strong local leadership,” stated John Cinelli, President of MetroNet. “The enthusiasm for this project from the village officials really elevated the Village of Plainfield in our minds.”

Because of the incredible capacity of its 100% fiber network, broadband enabled services like telecommuting, distance learning, and telemedicine will be possible. The Plainfield market will also be one of a handful of communities nationwide with the distinction of being a “Gigabit” community opening the door for economic development opportunities.

Plainfield Residents can go to www.metronetinc.com/plainfield or call 844-889-0448 to be the first to know when the MetroNet network build out reaches their neighborhood.

About MetroNet

MetroNet, a cutting-edge communications service provider, delivers the latest in fiber television technology, high-speed Internet, and local and long distance phone service over its 100% fiber optic network. Headquartered in Evansville, Ind., and serving 23 communities, MetroNet provides fiber-to-the-premise (FTTP) technology to homes and businesses within its footprint giving its customers state-of-the-art quality, speed, and reliability.
