Public Information Meeting  
Scheduled by  
the Village of Plainfield  
For Improvement of West Indian Boundary Road

The Village of Plainfield will hold an additional Public Information Meeting concerning the proposed improvement of West Indian Boundary Road from West Rowley Road to Creekside Drive. The public information meeting will be held at the Plainfield Public Works Facility (14400 S. Coil Plus Drive, Plainfield, IL 60544) on October 15<sup>th</sup>, 2019 from 5:00 pm to 7:00 pm. All persons interested in this project are invited to attend this meeting. Persons with disabilities planning to attend this meeting should contact the individual listed below by October 14<sup>th</sup>, 2019.

This is a federally-funded project, and the Public Information Meeting is being held in compliance with *National Environmental Policy Act (NEPA)* requirements and the Illinois Department of Transportation's public involvement policy. The proposed project will require construction in a floodplain. Pursuant to EO 11988, as amended by EO 13690, public review and comment on this proposal are hereby requested.

In addition to seeking feedback on the improvements, The Village is seeking public comments on the use of property from the Plainfield Park District for improvements associated with West Indian Boundary Road. The property is owned and operated by the Plainfield Park District and is protected by Section 4(f) of the U.S. Department of Transportation Act of 1966. The Village intends to seek a "de minimis" impact finding from the Federal Highway Administration (FHWA) based on the project not adversely affecting the features, attributes, or activities qualifying the property for protection under Section 4(f). Effects of the project on the Creekside North at Creekside Crossings Park will include acquisition of 0.076 acres of permanent drainage easement at the Spring Hole Creek and 0.095 acres of temporary construction easement within the park's 14.9 acres of land. Land acquisition is needed for the temporary closure of the multi-use path, replacement of the multi-use path, tree removal, and streambank stabilization of the Spring Hole Creek. Detailed documentation describing the impacts and mitigation associated with the effects of the West Indian Boundary Road project on the Creekside North at Creekside Crossings will be available for review at this time.

The meeting will be conducted in an open house format, meaning you can attend at any time. Representatives of the Village of Plainfield will be available to answer individual questions and record comments offered by those in attendance. The Village representatives will address topics such as the need for the project, right-of-way acquisition, and the tentative construction schedule. Preliminary exhibits will be available for inspection and viewing during the entire time.

For more information, contact Scott Threewitt, P.E., Lead Engineer at 815-230-2037 or [sthreewitt@goplainfield.com](mailto:sthreewitt@goplainfield.com). We look forward to seeing you at the public information meeting and receiving your feedback.
